

Block Bond - Acrylic Lacquer Polishes

Mishika Enterprises manufactures Block Bond acrylic lacquer polishes. These liquid polishes form a clear, high-gloss protective shield on paver blocks, enhancing color richness while preventing dirt and oil absorption.

Key Features

- > Wet-look high-gloss finish makes concrete colors pop brilliantly.
- > Creates a waterproof barrier preventing water seepage and efflorescence.
- > Stain-proof shield resists oil spills, tyre marks, and mud stains.

Application Guide

Apply to dry, cured concrete using a roller or sprayer. Apply two thin coats, allowing 4 hours of drying time between them.
